Dawn Delatte
Designer & Developer

dawndelatte@gmail.com dawndelatte.com 504.201.2864

OBJECTIVE

Continue to challenge myself and utilize my design and programming skills to contribute to a team that values growth and work–life balance.

EDUCATION

The Iron Yard 2015
UI Design
Discovery and ideation, foundational design principles, cohesive design languages, Photoshop, Illustrator, and interface development using HTML, CSS3 / Sass, and some Javascript.

Belhaven University 2006–2009
School of Fine Arts
Concentrated in Sculpture and painting. Learned the importance of process, self-assessment, and critique.

Louisiana Tech University 2005–2006
Studio Art and Psychology
Learned about composition, color theory, and the fundamentals of art and design.

SKILLS

Design
Research and Discovery

Content Strategy
Print Design

Software
Photoshop
Illustrator
Sublime Text 3

Programming
HTML
CSS3 / Sass
Git and GitHub
Responsive Web Design
Javascript plug ins

Workin' On
JavaScript/jQuery
Adobe InDesign
French

EXPERIENCE

Spiceworks June 2015 - current
Contract Designer for Marketing Creative Team
Contribute to design team in creating banner ads, web and application ads, email marketing assets, and infographics for current and potential users. Producing video graphics for live stream programming. Creating and producing print and digital products and signage for large-scale, company-wide events.

PaperTree Design Co. 2015
Freelance UI Designer
Produced multiple iterations of UI element collages for a user page, including user profile information, photo time lines, and other interactive elements related to client's web application. Communicated remotely with the client and app developer about the design needs and iterated based on feedback.

SumoJerky 2015
Freelance Web & Brand Designer
Created and produced brand logo, promotional illustrations and assets for the website, and full-content, responsive wireframes and comps for the business' web application. As well as helping to implement design using HTML and CSS.

Bagel Runner App by Joe Rocca 2015
Freelance Graphic Designer
Created and produced icons, logo, and graphics for Bagel Runner which launched in the App Store May 28th. Communicated the design needs with the app developer and iterated based on feedback. Set up folder structures and produced multiple copies of each graphic specific to mobile app requirements.

EXTRA

ATXSass Meetup
Organizer
Collaborate with other organizers to schedule events, speakers, and facilitate monthly meetup activity centered around Front End Development and a CSS preprocessor called Sass.
